Right Rear

Tire Compound: Std Soft

Shock O-Ring: Black

Shock Type: Plastic Alum

Oil/Grease: AE Green Slime

Spring: Soft Med Hard

Spring Preload: 1

Caster: _____

Corner Weight: _____

Chassis Height: 4

Wheel hex: 2 mm

Performance notes: Car was good. Not great, but good. Just a little skittish into and out of the turns. If I applied a little more throttle than normal coming out of the turn, it calmed down on exit. My RF tire was a little swollen and I think this was causing the weird feeling.
